- Everything was great but perhaps how turkish students were able to work and organize by themselves was very impressive.
- when we were going out at night
- When we were all together at night in the city.
- Spend the day with my turkish friends
- In my opinion, teacher and studens very friendly, hospitality and great trip the last day.
- Meet new people
- Meeting the partners and knowing the surprising Antalya city and surrounding historical sites
- The relation that was built with all partners that allowed a great time and unforgettable experiences.
- Our trip to Aspendos.
- I guess the trip that we traveled around Antalya
- Tasting Turkish coffee
- We had so much fun and made new friends. We met a lot of person from different countries. It was such an amazing week.
- We made wonderful and unforgettable friendships.

What difficulties did you face during the stay in Antalya?

Thank you

The model Ilkay found to work it's the ideal mixing freetime with working periods and visits. A template to surely copy in next meetings.

I suggest, to create more activities that can help to know better people from others countries

More days to known city was good

Dont have any

Everything was great

Teachers should take part in the conference as observers in order to monitor the activity and conference time should be reduced so that students can have more chance to visit the city/town or other cultural activities

Congratulate the Organisation because of the good work. Well done.

I think that relations between spanish and turkish students and families were very enriching.

I really liked it is an unforgettable experience I hope to repeat

I like doing this kind of thing a lot, I like to know another way of life different from the one I have, other new cultures and languages, see you soon!!!

Very good people

I feel lucky to have participated in this project and I hope that many more like this are realized, thanks

No need. everything was excellent

We have to maintain the standards in further reunions.

I dont have any suggestions.

Nothing.

That was fantastic experience.

Everyone was amazing and we built new memories. I wish they could stay more. I hope we all can meet again.

I recommend to give more information and tips about MUN for first timers before conference starts thus they can also be more active during debates.
